

Relevant Analysis to Selective Dimerization of Fluorenones for Synthesis of Dibenzo[*g,p*]chrysenes

Yuta Taguchi, Tetsuo Iwasawa*

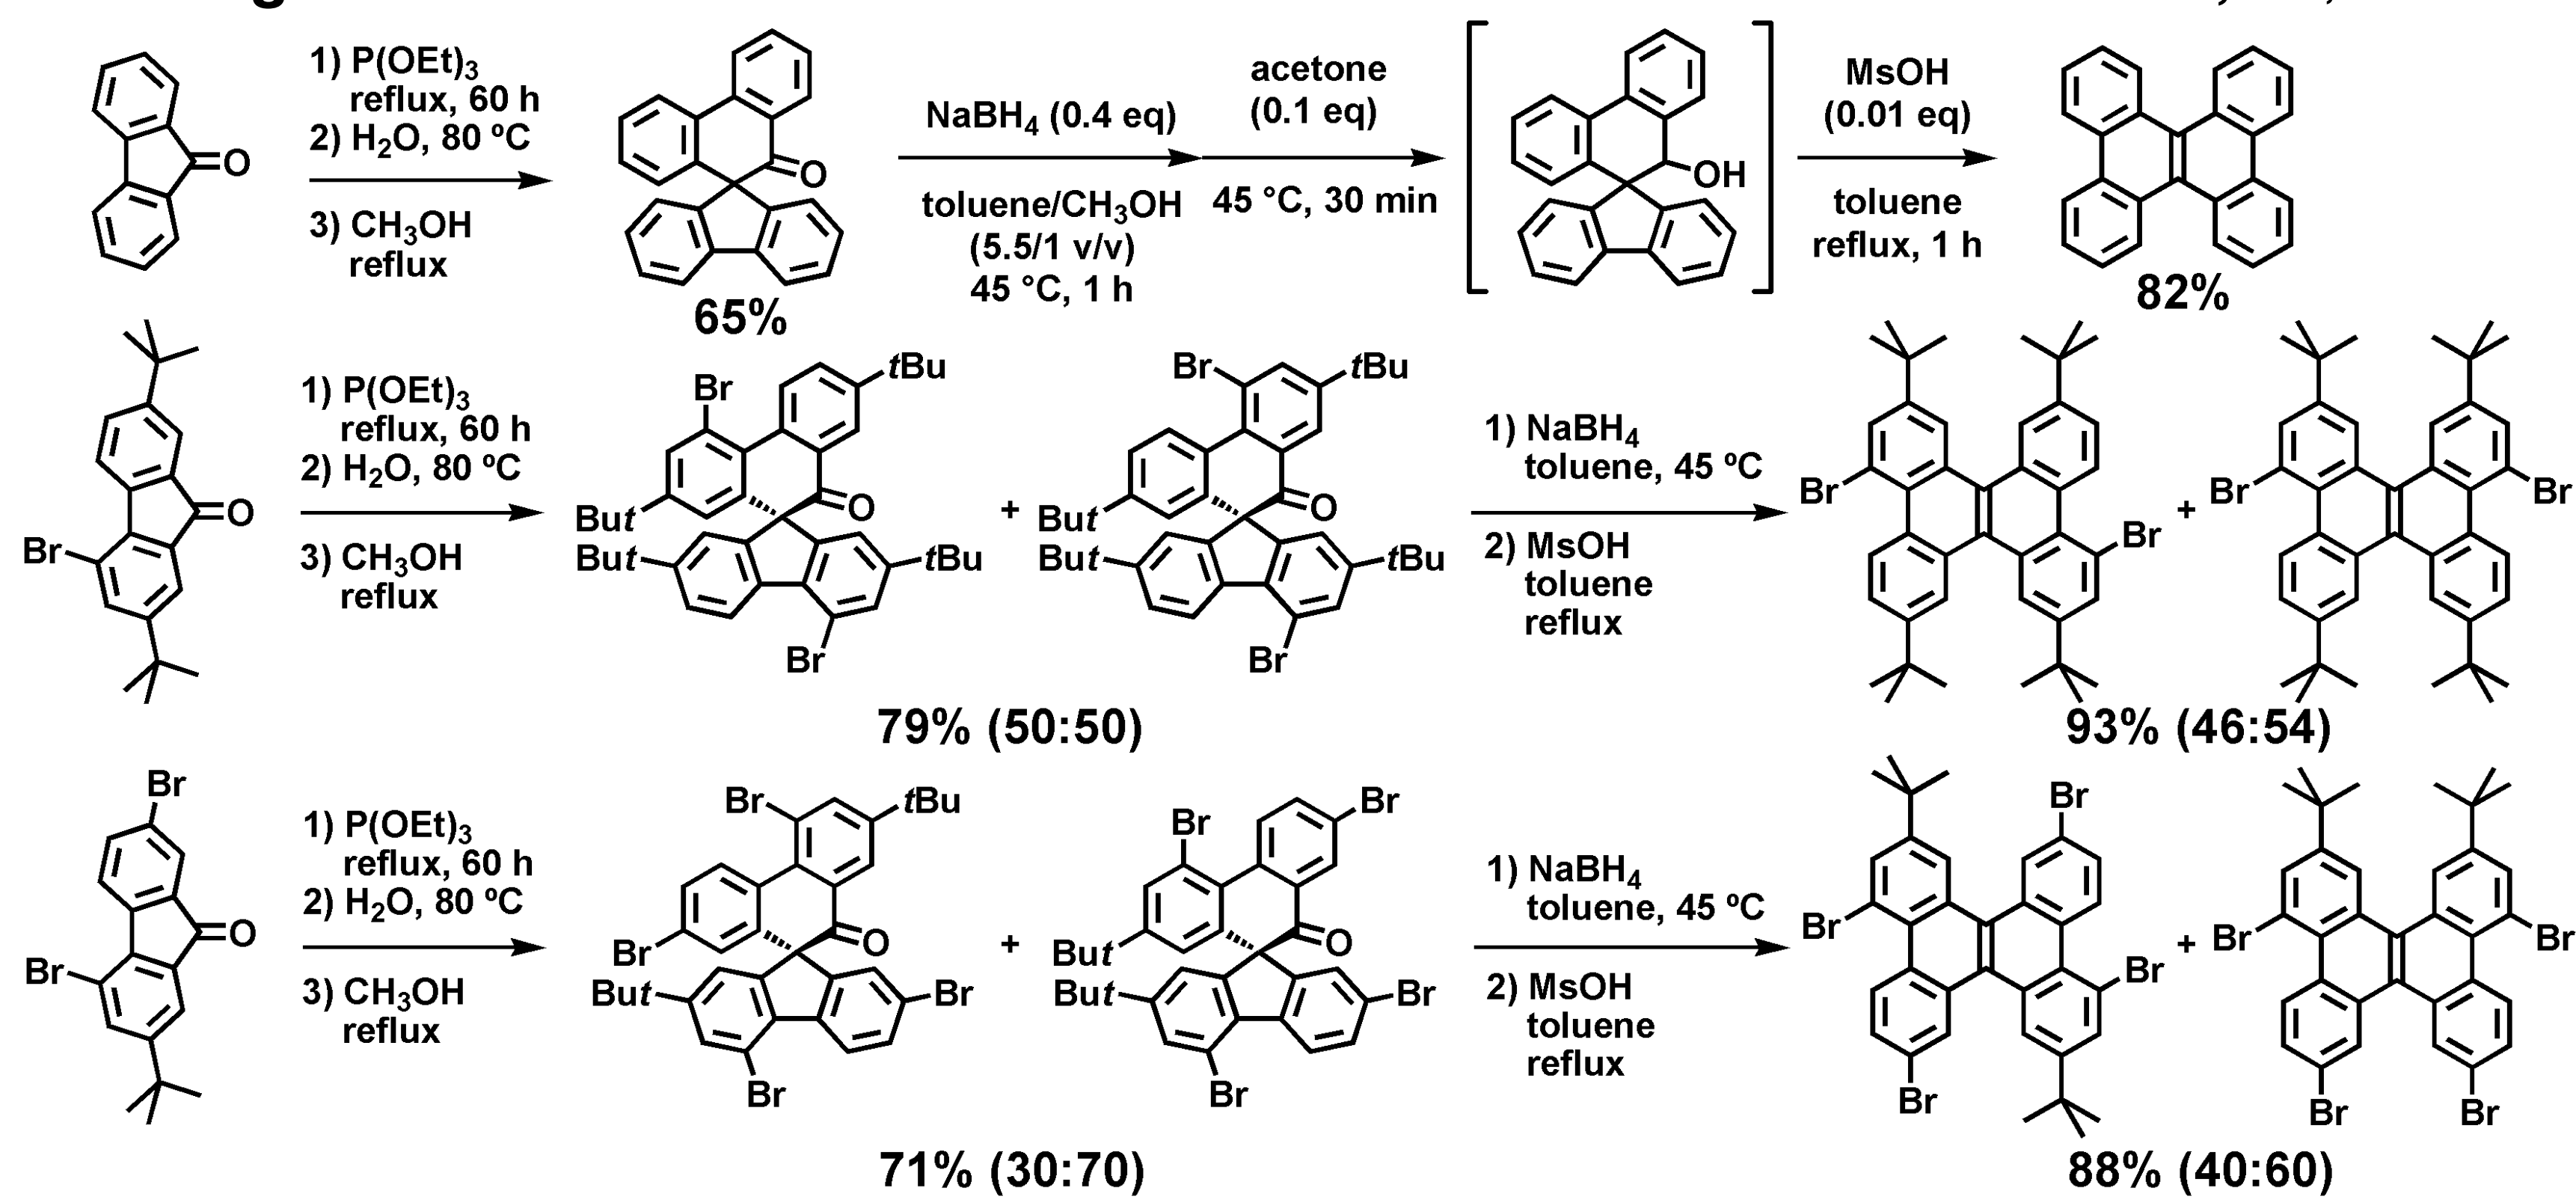

Department of Materials Chemistry, Ryukoku University, Seta, Otsu, Shiga 520-2194, Japan

1. Summary: Improved Methods and Optimized Conditions *Tetrahedron* 2021, 95, 132353

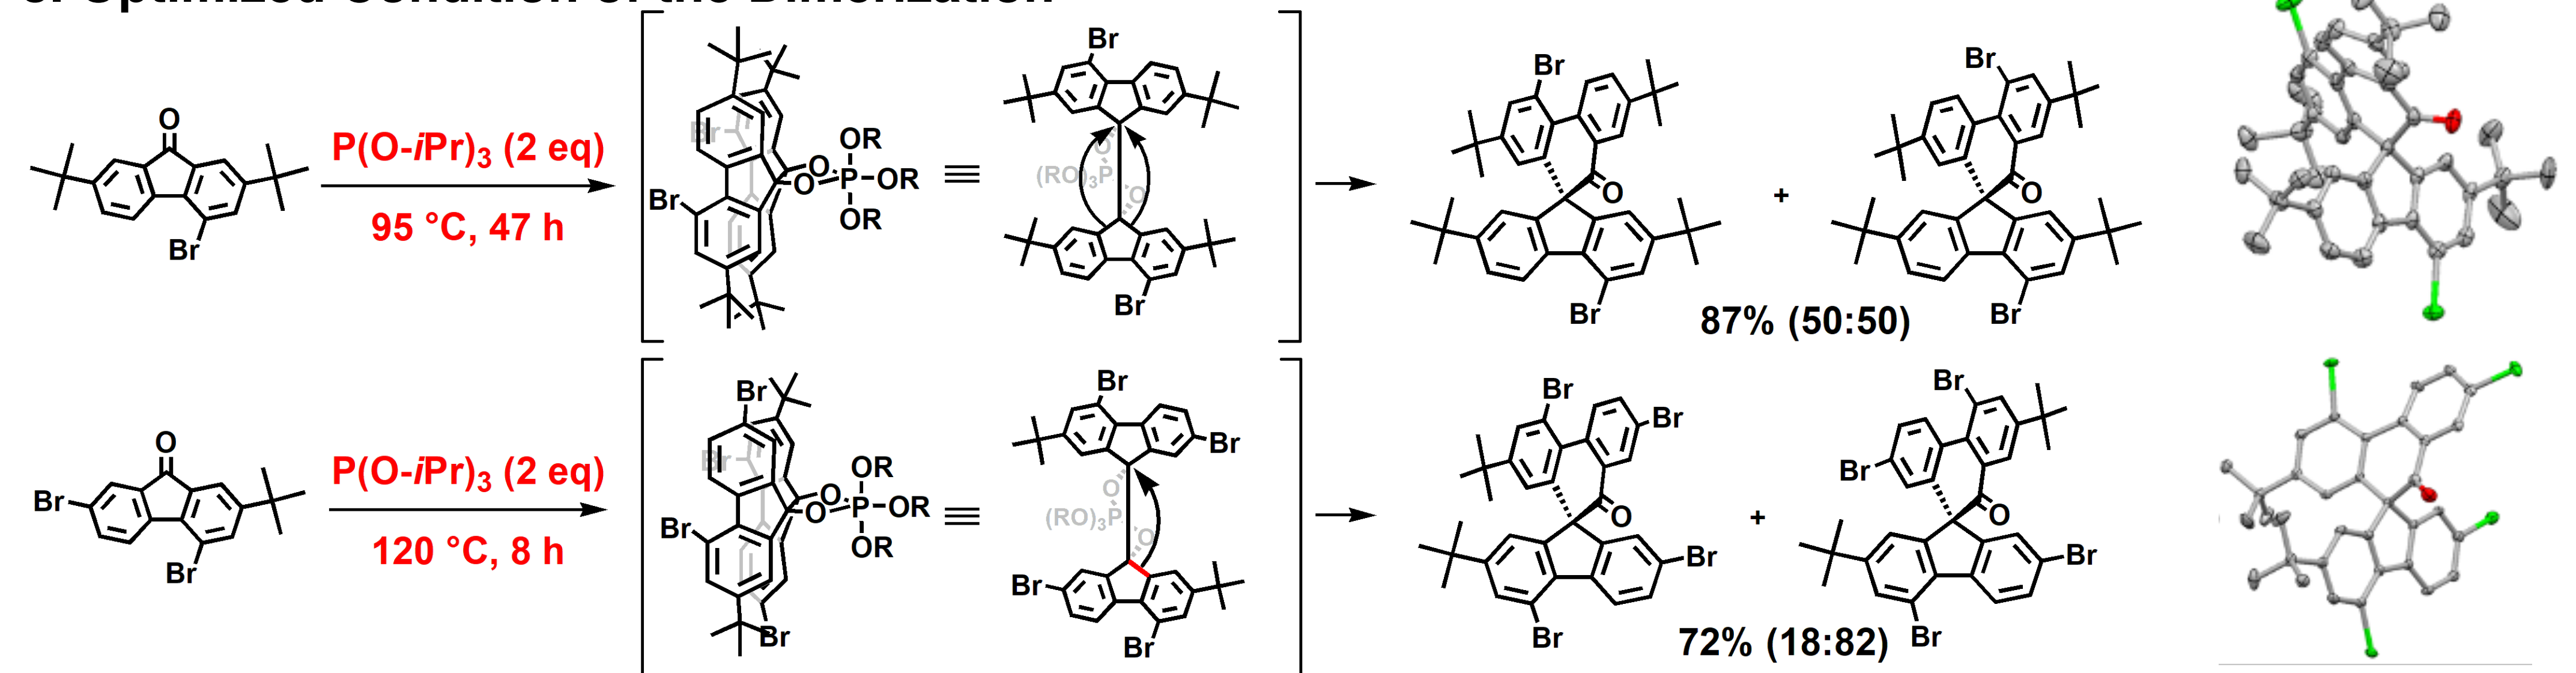

2. Background: Previous Method & Conditions *Tetrahedron Letters* 2020, 61, 152033

**Metal-Free
Speedy
Scaleable**

**But
Isomeric
Mixtures**

3. Optimized Condition of the Dimerization

4. Optimized Condition of the Wagner-Meerwein Rearrangement
